How to use this workbook

This workbook is the working layer of the course. Use it while watching or reading the lesson, then complete the practice before marking the lesson done. Keep source material, first drafts, revisions, and review evidence together.

- ☐ Read or watch the lesson in order.
- ☐ Replace every bracketed prompt field with approved facts.
- ☐ Save the first result before revising.
- ☐ Run the pass standard and fix material defects.
- ☐ Submit designated builds for review.
- ☐ Pass the lesson checks and final at 80 percent or higher.

Completion standard

Watching does not equal completion. Completion requires every lesson, every assignment, every lesson check, the final assessment, and approval of designated deliverables. Completion letters are private course records. They are not degrees, professional licenses, accreditation, state or federal certification, promises of employment, or guarantees of business results.
