

The Lead Capture System

Operator Workbook

Build a useful lead magnet, consent-aware form, thank-you path, qualification step, and handoff into one owned lead record.

LEARN	PRACTICE	CHECK	BUILD
8	Every lesson	80% pass	Capstone

How to use this workbook

This workbook is the working layer of the course. Use it while watching or reading the lesson, then complete the practice before marking the lesson done. Keep source material, first drafts, revisions, and review evidence together.

- ☐ Read or watch the lesson in order.
- ☐ Replace every bracketed prompt field with approved facts.
- ☐ Save the first result before revising.
- ☐ Run the pass standard and fix material defects.
- ☐ Submit designated builds for review.
- ☐ Pass the lesson checks and final at 80 percent or higher.

Completion standard

Watching does not equal completion. Completion requires every lesson, every assignment, every lesson check, the final assessment, and approval of designated deliverables. Completion letters are private course records. They are not degrees, professional licenses, accreditation, state or federal certification, promises of employment, or guarantees of business results.

Course roadmap

#	Lesson	Evidence
1	Choose the Micro Result	Assignment saved
2	Design the Lead Magnet	Assignment saved + review
3	Ask for the Right Data	Assignment saved
4	Write Clear Consent	Assignment saved
5	Build the Thank-You Path	Assignment saved
6	Qualify Without Interrogating	Assignment saved
7	Create One Lead Record	Assignment saved + review
8	Test the Whole Funnel	Assignment saved + review

LESSON 01

Choose the Micro Result

Result

Give away a small result that naturally points to the paid next step.

Operator method

- ☐ Start with one urgent question
- ☐ Make the result finishable
- ☐ Connect it to the core offer

Exact working prompt

Generate ten lead magnet ideas for [buyer] who wants [result]. Each must be completed in under twenty minutes, create a tangible output, and naturally reveal when the paid offer is useful. Rank them by usefulness, speed, and buyer fit.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Select one lead magnet and write its one-sentence promise.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The free result is useful on its own and connected to the same buyer and problem as the paid offer.

Reviewer or self-review notes

LESSON 02

Design the Lead Magnet

Result

Create the checklist, calculator, prompt pack, diagnostic, or mini-course outline.

Operator method

- ☐ Choose the right format
- ☐ Remove unnecessary content
- ☐ End with a useful next decision

Exact working prompt

Build a complete outline for a [format] that helps [buyer] produce [micro-result]. Include title, instructions, steps, examples, completion check, and a non-pushy next step. Keep it usable in twenty minutes.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Create version one of the lead magnet and test every instruction yourself.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

A new user can complete it without a call, missing information, or hidden paid requirement.

Reviewer or self-review notes

LESSON 03

Ask for the Right Data

Result

Collect only the contact and qualification fields the next action truly needs.

Operator method

- ☐ Separate required from optional
- ☐ Explain why data is requested
- ☐ Minimize sensitive collection

Exact working prompt

Audit this lead form: [paste fields]. For every field, label required, optional, or remove. Explain the business need, privacy risk, and effect on conversion. Then return a shorter recommended form.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Finalize a form with name, email, phone, and no more than three relevant qualification fields.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Every field has a documented purpose and consent is separate from access.

Reviewer or self-review notes

LESSON 04

Write Clear Consent

Result

Separate requested access from optional marketing email, calls, and text consent.

Operator method

- ☐ Describe the immediate transaction
- ☐ Use unchecked optional consent
- ☐ Link privacy information

Exact working prompt

Draft plain-language form disclosures for access to [lead magnet]. Include the immediate delivery statement, optional marketing email consent, optional call and SMS consent, message frequency and rates language where relevant, and an unsubscribe statement. Do not give legal advice; flag items for counsel review.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Add separate consent controls and save a screenshot of the final form.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Access is not conditioned on optional promotional consent, and phone collection does not silently equal SMS consent.

Reviewer or self-review notes

LESSON 05

Build the Thank-You Path

Result

Turn form completion into delivery, orientation, and one next action.

Operator method

- ☐ Confirm success
- ☐ Deliver immediately
- ☐ Offer one logical next step

Exact working prompt

Write a thank-you page for [lead magnet]. Include confirmation, access instructions, what to do first, what result to expect, troubleshooting, and one next step into [offer]. Keep it direct and useful.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Publish or prototype the thank-you page and test it on mobile.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The user receives the promised asset immediately and sees exactly one primary next action.

Reviewer or self-review notes

LESSON 06

Qualify Without Interrogating

Result

Collect enough context to route a lead without making the form feel like an application for a mortgage.

Operator method

- ☐ Ask only actionable questions
- ☐ Use answer ranges
- ☐ Route based on declared need

Exact working prompt

Create five short qualification questions for [offer]. Each answer must change routing, priority, or follow-up. Provide answer choices, the decision each answer affects, and which questions can wait until later.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Add three qualification fields and write the routing rule for each.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Every question changes a real action and avoids sensitive or discriminatory profiling.

Reviewer or self-review notes

LESSON 07

Create One Lead Record

Result

Store source, consent, status, and next action in one owned record.

Operator method

- ☐ Define the source of truth
- ☐ Preserve consent evidence
- ☐ Assign status and owner

Exact working prompt

Design a simple lead record schema for [business]. Include identity, source, UTM, consent timestamps, qualification, status, owner, next action, and notes. Mark sensitive fields and recommend retention limits.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Map every form field to the lead record and remove any field with no destination.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The record preserves provenance and consent, avoids duplicates, and supports the next action.

Reviewer or self-review notes

LESSON 08

Test the Whole Funnel

Result

Verify the form, mobile experience, record creation, delivery, and routing before promotion.

Operator method

- ☐ Run a clean-device test
- ☐ Inspect the database record
- ☐ Test every failure state

Exact working prompt

Create an end-to-end QA checklist for this lead funnel: [describe funnel]. Cover desktop, mobile, required fields, consent, duplicate submission, slow network, confirmation, record creation, notifications, unsubscribe, and analytics.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Run two test submissions, one clean and one error case, then document every issue.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The promised result arrives, the record is complete, consent matches the choices, and failures give a recoverable message.

Reviewer or self-review notes

Final assessment and capstone

Before opening the final, confirm that every lesson artifact is saved and every designated build has a viewable submission link. The final assessment requires at least 80 percent. Retakes are allowed.

Capstone evidence checklist

- ☐ Approved brief and intended result
- ☐ Source or evidence register
- ☐ Working prompt or operating template
- ☐ First result and final result
- ☐ Quality-control record
- ☐ Privacy, security, and approval review
- ☐ Repeatable runbook
- ☐ Viewable capstone link
- ☐ One measurable result or decision metric

Capstone link

What I built and why it matters

Private course record disclaimer

This workbook and any completion letter document participation in a private LeadFlow Pro course operated by Longview Training Center LLC. They do not create a degree, professional license, accreditation, government certification, promise of employment, or guarantee of business results.
