

The Local Ads Operator

Operator Workbook

Plan local ad campaigns from offer and geography through creative, landing page, tracking, budget guardrails, and weekly decisions.

LEARN	PRACTICE	CHECK	BUILD
8	Every lesson	80% pass	Capstone

How to use this workbook

This workbook is the working layer of the course. Use it while watching or reading the lesson, then complete the practice before marking the lesson done. Keep source material, first drafts, revisions, and review evidence together.

- ☐ Read or watch the lesson in order.
- ☐ Replace every bracketed prompt field with approved facts.
- ☐ Save the first result before revising.
- ☐ Run the pass standard and fix material defects.
- ☐ Submit designated builds for review.
- ☐ Pass the lesson checks and final at 80 percent or higher.

Completion standard

Watching does not equal completion. Completion requires every lesson, every assignment, every lesson check, the final assessment, and approval of designated deliverables. Completion letters are private course records. They are not degrees, professional licenses, accreditation, state or federal certification, promises of employment, or guarantees of business results.

Course roadmap

#	Lesson	Evidence
1	Define the Local Campaign	Assignment saved
2	Calculate Budget Guardrails	Assignment saved
3	Build the Message Matrix	Assignment saved + review
4	Produce the Creative Batch	Assignment saved + review
5	Build the Ad Landing Page	Assignment saved
6	Install Measurement	Assignment saved
7	Launch a Controlled Test	Assignment saved + review
8	Make Weekly Decisions	Assignment saved + review

LESSON 01

Define the Local Campaign

Result

Connect one audience, geography, offer, action, and business constraint.

Operator method

- ☐ Choose one service area
- ☐ Use one offer
- ☐ Define a qualified result

Exact working prompt

Create a local campaign brief for [business]. Include offer, buyer, service area, exclusions, seasonality, capacity, qualified lead definition, landing page, primary action, and constraints. Flag missing evidence.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Complete the campaign brief and have the operator approve it.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The business can fulfill the promoted offer in the selected area and define a qualified lead.

Reviewer or self-review notes

LESSON 02

Calculate Budget Guardrails

Result

Set a test budget and stop thresholds from economics and capacity.

Operator method

- ☐ Estimate contribution margin
- ☐ Choose an affordable acquisition range
- ☐ Cap the learning test

Exact working prompt

Build a budget model for [offer] using average sale, gross margin, close rate, capacity, target payback, and available test budget. Show assumptions, break-even lead cost, target lead cost, daily cap, total cap, and stop rules. Do not claim forecasts are guaranteed.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Complete the budget sheet with conservative, base, and strong cases.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Every budget number traces to an assumption and spending has a fixed cap and stop rule.

Reviewer or self-review notes

LESSON 03

Build the Message Matrix

Result

Create distinct ad angles from real problems, triggers, proof, and objections.

Operator method

- ☐ Collect buyer language
- ☐ Separate angle from format
- ☐ Match claims to proof

Exact working prompt

Create a message matrix for [offer]. Produce five angles. For each include buyer trigger, problem, promise, proof available, limitation, hook, body, call to action, and visual idea. Remove claims that lack evidence.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Select three angles and create one ad brief for each.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Each angle is materially different and every claim is supportable.

Reviewer or self-review notes

LESSON 04

Produce the Creative Batch

Result

Turn three angles into a controlled set of video, image, and text variations.

Operator method

- ☐ Hold one variable steady
- ☐ Design for the placement
- ☐ Label every version

Exact working prompt

Create a creative production plan for three approved ad angles. For each, write a 20-second video script, static image brief, primary text, headline, description, exact call to action, file name, and hypothesis. Avoid before-and-after claims unless verified and allowed.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Record or create nine labeled ad assets and attach their source proof.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Each asset matches its angle, placement, approved claim, and version label.

Reviewer or self-review notes

LESSON 05

Build the Ad Landing Page

Result

Match the ad promise to a fast page with one action and clear evidence.

Operator method

- ☐ Repeat the message
- ☐ Reduce distractions
- ☐ Confirm the next step

Exact working prompt

Write an ad-specific landing page for [angle and offer]. Include message-match headline, problem, outcome, proof, scope, form, consent, FAQ, limitations, and thank-you step. Keep one primary action.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Build or prototype the page and compare every claim to the ad.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

A visitor sees the same offer, language, and expectation from ad through confirmation.

Reviewer or self-review notes

LESSON 06

Install Measurement

Result

Record spend, visits, form success, qualified leads, appointments, sales, and source quality.

Operator method

- ☐ Define the event
- ☐ Preserve campaign identifiers
- ☐ Verify each stage

Exact working prompt

Design a privacy-aware measurement plan for [campaign]. Include ad identifiers, landing page events, form success, lead record fields, qualification, appointment, sale, refunds, offline outcome upload considerations, and test procedure.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Run a test click and verify each first-party record without using personal data in URLs.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Events fire once, source fields persist, and business outcomes can be joined without exposing sensitive data.

Reviewer or self-review notes

LESSON 07

Launch a Controlled Test

Result

Start small with approved creative, fixed budgets, exclusions, and a documented review date.

Operator method

- ☐ Complete preflight
- ☐ Limit changes
- ☐ Record the baseline

Exact working prompt

Create a campaign launch checklist for [platform and campaign]. Cover account access, billing, geography, exclusions, placement, budget, schedule, creative, claims, landing page, events, notifications, naming, approval, and pause procedure.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Complete the checklist and record screenshots of every live setting before spending.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Budget, area, dates, creative, page, tracking, and approval exactly match the brief.

Reviewer or self-review notes

LESSON 08

Make Weekly Decisions

Result

Separate facts from noise and choose keep, pause, fix, or test actions.

Operator method

- ☐ Check data quality
- ☐ Compare to guardrails
- ☐ Change one major variable

Exact working prompt

Analyze this weekly campaign data: [paste]. First check tracking quality. Then report spend, delivery, click, landing-page conversion, qualified leads, appointments, sales, cost metrics, creative findings, and confidence. Recommend keep, pause, fix, or test with reasons and limits.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Write the weekly decision note and log approved changes.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Decisions use qualified business outcomes, respect the budget rules, and avoid declaring winners from insufficient data.

Reviewer or self-review notes

Final assessment and capstone

Before opening the final, confirm that every lesson artifact is saved and every designated build has a viewable submission link. The final assessment requires at least 80 percent. Retakes are allowed.

Capstone evidence checklist

- ☐ Approved brief and intended result
- ☐ Source or evidence register
- ☐ Working prompt or operating template
- ☐ First result and final result
- ☐ Quality-control record
- ☐ Privacy, security, and approval review
- ☐ Repeatable runbook
- ☐ Viewable capstone link
- ☐ One measurable result or decision metric
