

The Offer Engine

Operator Workbook

Turn what you know into one clear, honest offer with a defined buyer, result, scope, proof plan, price, and next action.

LEARN	PRACTICE	CHECK	BUILD
8	Every lesson	80% pass	Capstone

How to use this workbook

This workbook is the working layer of the course. Use it while watching or reading the lesson, then complete the practice before marking the lesson done. Keep source material, first drafts, revisions, and review evidence together.

- ☐ Read or watch the lesson in order.
- ☐ Replace every bracketed prompt field with approved facts.
- ☐ Save the first result before revising.
- ☐ Run the pass standard and fix material defects.
- ☐ Submit designated builds for review.
- ☐ Pass the lesson checks and final at 80 percent or higher.

Completion standard

Watching does not equal completion. Completion requires every lesson, every assignment, every lesson check, the final assessment, and approval of designated deliverables. Completion letters are private course records. They are not degrees, professional licenses, accreditation, state or federal certification, promises of employment, or guarantees of business results.

Course roadmap

#	Lesson	Evidence
1	Choose One Buyer	Assignment saved
2	Define the Result	Assignment saved
3	Package the Scope	Assignment saved + review
4	Build the Proof Plan	Assignment saved
5	Price for Delivery	Assignment saved
6	Answer Real Objections	Assignment saved
7	Write the Offer Page	Assignment saved + review
8	Validate Before Scaling	Assignment saved + review

LESSON 01

Choose One Buyer

Result

Name a specific buyer whose problem you understand well enough to solve.

Operator method

- ☐ Start with lived evidence
- ☐ Name the costly problem
- ☐ Exclude poor-fit buyers

Exact working prompt

Act as an offer strategist. Help me define one specific buyer for [skill/service]. Ask five questions one at a time, then return: buyer description, urgent problem, failed alternatives, buying trigger, and who this is not for. Do not invent facts.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Complete a one-page ideal buyer brief and name three people or businesses that fit it.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The buyer is specific, observable, reachable, and connected to a problem you can honestly help solve.

Reviewer or self-review notes

LESSON 02

Define the Result

Result

State a useful outcome without promising revenue, rankings, virality, or certainty.

Operator method

- ☐ Separate output from outcome
- ☐ Bound the time and scope
- ☐ Remove unsupported promises

Exact working prompt

Rewrite this broad service into five bounded outcome statements: [service]. Each must say who it is for, what they will finish, what is included, and what is not guaranteed.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Write one final result statement and a plain-language limitations statement.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

A buyer can tell what will exist at the end, while the language avoids guaranteed business results.

Reviewer or self-review notes

LESSON 03

Package the Scope

Result

Create a scope that is easy to understand, deliver, and review.

Operator method

- ☐ List required inputs
- ☐ Define deliverables
- ☐ Set revision and approval limits

Exact working prompt

Turn this result into a fixed scope: [result]. Return required inputs, deliverables, milestones, client responsibilities, exclusions, revision policy, and acceptance criteria.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Build a scope card with no more than five main deliverables.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Every deliverable has an owner, format, review point, and clear boundary.

Reviewer or self-review notes

LESSON 04

Build the Proof Plan

Result

Identify ethical proof that reduces buyer uncertainty.

Operator method

- ☐ Inventory existing evidence
- ☐ Separate facts from claims
- ☐ Plan the next proof asset

Exact working prompt

Audit the proof for this offer: [paste offer and evidence]. Label each claim verified, supported but incomplete, or unsupported. Recommend the smallest ethical proof asset for each gap.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Create a proof inventory with source links and remove one unsupported claim.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Every public claim can be traced to evidence or is clearly labeled as an example, estimate, or opinion.

Reviewer or self-review notes

LESSON 05

Price for Delivery

Result

Set a price floor from real delivery cost, risk, support, and margin.

Operator method

- ☐ Calculate labor and hard cost
- ☐ Add risk and support allowance
- ☐ Choose a testable price

Exact working prompt

Help me calculate a price floor for [offer]. Use these inputs: labor hours [x], hourly value [x], hard costs [x], support hours [x], risk allowance [x percent]. Show the math and give good-better-best packaging without pretending to know market demand.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Complete the price-floor worksheet and select a founding and regular price.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The selected price covers direct cost, support, risk, and a stated margin assumption.

Reviewer or self-review notes

LESSON 06

Answer Real Objections

Result

Respond to hesitation with clarity, proof, fit, and boundaries.

Operator method

- ☐ Collect exact language
- ☐ Identify the uncertainty
- ☐ Answer without pressure

Exact working prompt

Turn these buyer objections into honest FAQ answers: [paste objections]. For each, identify the real uncertainty, answer in plain language, state any limitation, and give a low-pressure next step.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Write eight objection answers and test them with one real person.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

Answers address the concern directly, include limits, and do not manufacture urgency.

Reviewer or self-review notes

LESSON 07

Write the Offer Page

Result

Assemble the buyer, problem, result, scope, proof, price, and next action into one page.

Operator method

- ☐ Lead with the buyer's problem
- ☐ Show the deliverable and process
- ☐ Make the next action obvious

Exact working prompt

Write a one-page offer page using this approved brief: [paste brief]. Include headline, problem, outcome, deliverables, process, proof, fit and non-fit, price, FAQ, limitations, and one call to action. Use short sentences and no hype.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Draft the full offer page and read it aloud once before revising.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The page matches the approved brief, uses one call to action, and makes no unsupported claim.

Reviewer or self-review notes

LESSON 08

Validate Before Scaling

Result

Run a small evidence-gathering launch before spending heavily.

Operator method

- ☐ Choose a small audience
- ☐ Define pass and fail signals
- ☐ Record questions and decisions

Exact working prompt

Create a seven-day validation plan for [offer]. Use only permissioned outreach and owned channels. Define daily actions, conversation questions, pass/fail thresholds, what to record, and the decision at the end.

Practice record

Input or source used:

What changed between the first and final result?

Assignment

Run five buyer conversations or five qualified page visits and record what happened.

- ☐ Source material saved
- ☐ First result saved
- ☐ Final result saved
- ☐ Review completed

Pass standard

The test has a fixed window, measurable signals, consent-respecting outreach, and a clear continue, revise, or stop decision.

Reviewer or self-review notes

Final assessment and capstone

Before opening the final, confirm that every lesson artifact is saved and every designated build has a viewable submission link. The final assessment requires at least 80 percent. Retakes are allowed.

Capstone evidence checklist

- ☐ Approved brief and intended result
- ☐ Source or evidence register
- ☐ Working prompt or operating template
- ☐ First result and final result
- ☐ Quality-control record
- ☐ Privacy, security, and approval review
- ☐ Repeatable runbook
- ☐ Viewable capstone link
- ☐ One measurable result or decision metric

Capstone link

What I built and why it matters

Private course record disclaimer
